

4th Annual K-14 Symposium

Technical Education: The Resource for Recovery Career Pathways for Adult Learners

save the date

when

October 27-28, 2009
9 a.m. - 4:30 p.m.

where

Anoka Technical College, Auditorium A-B
1355 West Highway 10
Anoka, MN 55303

focus

Join us for the fourth annual K-14 Symposium, **Career Pathways for Adult Learners**, a “call to action” workshop where you will learn how to create opportunities for adult learners to secure the education and training they need for the jobs of today and tomorrow. Career pathways help adults combine work and life experiences with technical program choices to seamlessly and cost-effectively manage the transition from work to college to reemployment or career advancement. Learn how agencies and individuals can work together to create an adult career pathways system for the community. Participants will examine practical strategies and examples and leave with a draft plan to tackle this urgent need.

Offered in partnership with The Center for Occupational Research and Development (CORD), the first day will focus on national trends and challenges. The second day will focus on statewide and local trends and challenges in Minnesota. **Participants attending both days will earn an Adult Career Pathways Certification from CORD.**

This is a symposium for high school teachers and administrators, community and technical college faculty and administrators, policy makers, workforce development professionals, and anyone who works with adult learners/dislocated workers and wants to learn more about career pathways.

cost

\$195 (lunch is included both days)

register
